Here's a quick guide to the ins and outs of these Chrysler
dies. Magnum 3.9 V6 This is one of the oldest Mopar V6
dies, and was exclusive to the Dakota, Ram pickup, and full-
size vans. The 3.9 launched in 1986 and was designed as an
die specifically for the Dakota.
Here's What You Need To Know About Chrysler V6 Engines
The 318 and 360 engines are essentially from the same engine block, but have different heads. Advancing. Fuel injection actually arrived quite early on the FA engines in 1981 through 1983 as throttle-body injection. It was available only on the Chrysler Imperial car, while the carbureted versions continued to be offered on the trucks.

The Novak Guide to the Chrysler / Dodge / Mopar Small ... The LA engines were durable designs with high power capacity, the Chrysler’s mainstay V8 for decades — and its only V8 for many years, as well. The first “LA” engine, the 273, appeared in the 1964 cars; the basic design was used in the 2017 Viper V-10. Horsepower ratings before 1970 are gross measurements (without accessories).

LA - Chrysler small block V8 engines
Although there are four different cylinder bore sizes, Chrysler made two basic blocks. One is the 273, 318, and 5.2L block; the other is the 340, 360, and 5.9L block. Most A-engines use a motor-mount design that attaches to the sides of the block close to the front, and the mount ears and bolts are parallel to the cam centerline.
